

Airbus A3XX Series I Briefings

Airbus A319/A320/A321 | Properly Constructed Flight Briefings

American Virtual | Flight Crew Reference

A well-structured briefing is an essential part of a professional flight deck.

This American Virtual reference guide helps Airbus A320-family pilots organize and deliver effective flight briefings, covering key considerations such as aircraft status, weather, takeoff performance, flight planning, and abnormal procedures.

Whether flying solo or in a shared cockpit, this practical resource will help you establish a consistent briefing routine, improve situational awareness, and bring greater realism to your virtual operations.
